Our Story

Established in 1908, the CIF-IFC is the oldest forest society in Canada! The Institute serves as the voice of forest practitioners representing foresters, forest technologists and technicians, ecologists, biologists, educators and many others with a professional interest in forestry.

The Institute is dedicated to:
1. Providing national leadership in forestry;
2. Promoting competency among forestry professionals;
3. Fostering public awareness of forestry issues.

Mission, Vision & Motto

Vision:
To inspire confidence and pride in Canadian forestry - nationally and internationally

Mission:
Provide national leadership in forestry, promote competency in forest professionals, and foster public awareness of Canadian and international forestry issues

Motto:
Voice of Forest Practitioners

Our Sections

The National office is located in Samuel de Champlain Provincial Park in the Canadian Ecology Centre, near Mattawa, Ontario. The National office works closely with the CIF-IFC Sections across Canada. The Sections are the foundation of the Institute and give us a strong local, regional, and provincial network and presence. The Sections also provide guidance to the National Executive committee.

2200 members from government, industry, and academia united as the voice of forest practitioners!

19 National Sections, and 1 International Section providing local and regional presence!

Join a community of like-minded individuals who are passionate about our forests, and make a real impact locally and abroad!
Membership

The CIF-IFC has 2200 members from government, industry, and academia united as the voice of forest practitioners. A membership with the CIF will help you achieve your professional and personal goals while you take part in something bigger.

Why become a member?

› Be part of a community of like-minded individuals who are passionate about the environment.
› Make a real impact on forests locally and abroad.
› Open career opportunities in Forestry, Natural Resources and Environment Science.
› Chances to receive continuing education credits and awards for excellence.
› Access to fun and informative conferences and national social events.
› Enjoy all our resources, including The Forestry Chronicle which highlights the latest research and technology in the forest sector.
