THE FOREST ON YOUR DESKTOP - LA FORÊT SUR VOTRE BUREAU

### SPECIAL E-LECTURE SERIES:

#### A Novel Control of Buckthorn on the Landscape

LALLEMAND PLANT CARE

BioForest

Both common and glossy buckthorn are invasive to North America, often found outcompeting native species in the understory of forests. Lallemand Plant Care has been exploring an innovative biologically-based solution, LALCIDE CHONDRO, and this webinar will showcase how it can be a useful tool to help control buckthorn on the landscape.
