Specific responsibilities include but are not limited to:

- > Safely planning and directing operations projects and activities for assigned areas.
- > Managing field layout, surveying activities, mapping activities and design activities in collaboration with Contract Engineers and Contract Managers.
- > Actively participating in field auditing contract planning work including mentoring field staff, identifying and resolving issues, and conducting cut block and road layout.
- > Delivering road and harvest plans to the Contract Manager and supporting the safe execution of these activities.
- > Completing permit applications to execute logging and road-building activities.
- > Working with First Nations to ensure operational activities respect culture values.
- > Coordinating the design, installation, inspection, assurance, and maintenance of bridges.
- > Providing input into contract management activities including supporting contract development, rate negotiations and issue resolution.
- > Supporting the implementation of area operations projects and initiatives.

Required Skills and Experience

- > RFT or RPF eligibility or accreditation with the ABCFP.
- > Technical Diploma in Forestry or equivalent.
- > Valid Class 5 Driver's License or equivalent.
- > 2+ years forest engineering experience, with coastal experience preferred but not required.

- > Aptitude in Microsoft Office products, ROADENG, GIS, LIDAR, GPS, ARCMAP based mapping and other evolving computer applications.
- > Demonstrated competence in cut block layout.
- > Practical knowledge of timber harvesting systems.
- > Understanding of applicable regulations, legislation, and certification systems (ISO 14001 and SFI).
- > Excellent communication and interpersonal skills.
- > Ability to self-direct and effectively organize work.
- > Ability to plan and prioritize resources.

What You Get
