

NATIONAL FOREST WEEK

SEPTEMBER
17-23, 2023

Canadian Institute of Forestry
Institut forestier du Canada

Canada's Forests: Supporting Biological Diversity

Biological diversity in our forests is critical to our survival.

From fresh air and water, food security, medicines, shelter to innovative products and technologies, forests and trees provide many cultural, societal, environmental, and economical benefits. In a changing climate, forest practitioners, professionals, researchers, and scientists are working to ensure forests are sustainably managed for generations to come.

*Learn how Canada's forests maintain biological diversity by following **#NationalForestWeek** or visit: **cif-ifc.org/national-forest-week***
